Mobile Medical Van with Doctor, Dispensary, Medicines & Ultrasound at Balochistan and Sindh. Sonologist Performing Ultrasound at a Village.

Our Mobile medical van and Medical Hospital to help victims of famine

CHILDREN HEALTH & EDUCATION FOUNDATION RELIEF MEDICAL HOSPITAL

Our Doctors, Sonologist including Paramedic staff are providing free services to almost 9,000 poor patients while 2000 dry ration packs were distributed among the destitute people. Mobile medical van service providing health facilities in remote areas with FREE medication and medicines were also present.

MOBILE MEDICAL VAN SERVICES

Health is the most important focus area and mobile medical service has been the flagship program of the CSR initiatives. Women, Children and elderly person benefit the most out of these services owing to their low mobility and access to quality healthcare and services. Financial burden of health expenditure on the poor families was also substantially reduced due to the initiatives. Prior to the mobile services, people not only spent a lot of time and money in commuting long distances, they also had to manage with low quality services. The objective of the initiative was to provide preventive and curative healthcare services with OPD services across the target villages. The services have gradually seen considerable development. Apart from OPD camps, services have been extended to schools by conducting specialized health check-up camps for school Children, we are rendering our mobile medical services up to 200 villages to Sindh, Balochistan and Punjab.

FREE MOBILE MEDICAL VAN SERVICES

CHAEF continues to provide Mobile Medical Van facilities in flood 2010 at Badin, Thatta, Charsadda, Nowshera and Sukkur including medical camps. CHAEF established a FREE Medical Relief Camp at Tharparkar and provides mobile medical van services in various villages. Organized medical camp for IDP's at Nowshera, installed hand pumps with solar light in 200 villages at Thatta with mobile medical van services in Balochistan. Almost 65 villages are covered with Mobile Medical van with ultrasound services. We also established a medical camp in 2005 earthquake with mobile medical van where thousands of pregnant women were shifted in medical camp.

INAUGURATION OF E- HEALTHCARE CENTER

Children Health and Education Foundation is proud to announce the launch of its first ever E-Health care center for all rural areas. This E- Health clinic will provide free ONLINE consultation from well trained doctors via VIDEO CONFERENCING in Karachi and later on in Lahore, Multan, Peshawar and Quetta Inshallah.

INAUGURATION OF MR SHAUKAT TARIN (SI) PRIMARY HEALTH & MOTHER AND CHILD CLINIC (KORANGI)

A dream that was seen by MR. Shaukat Tarin(Si) to establish 1000 Health care and Mother Child clinic all over Pakistan with the help of E-Center now seems a reality, thanks to Allah Almighty. We are grateful to Mr Tarin for his continuous support to Children health and Education foundation.
