

CHILDREN HEALTH & EDUCATION FOUNDATION®

Please Help us to diagnose and treat the terminal diseases before these become incurable

Free treatment at the door step of poor and destitute patients

MESSAGE FROM

Syed Naeemul Hassan
Founder Chairman

I am pleased to express my sincerest thanks to well wishers, donors, management and staff of the Children Health & Education Foundation who have been supporting the mission with dedication.

“To Treat Terminal Diseases at stage one before these become incurable”

The objective of the Foundation was based on the premise that large Specialty Hospitals were being built at exorbitant cost to manage terminal end-stage Diseases whereas at a fraction of a cost these very Diseases could have been detected, prevented and treated in a Primary Care facility.

We developed a vision of establishing much needed Primary Healthcare, Mother & Child Healthcare Centres (Maternal Care) all over **Pakistan** to **Provide Free Consultation Diagnosis with Treatment** and to provide **FREE Medications** for common ailments which if left undetected or untreated at the initial stages can lead to Kidney failure, Terminal Cancer, Blindness, Heart Disease the list is endless.

(Maternal Care) Mother & Child Care the Diagnoses, Consultation, Treatment, Medicines, Ultrasound Services, Laboratory Tests for other diseases as well as for the Pregnancy if confirmed complete follow up (antenatal card system) till delivery of Child which includes Ultrasound, Monitoring Care, Multivitamins, Medicines and check by Gynecologist, Vaccinations and the arrangement of delivery at nearby Zakat funded Hospitals, so that all mothers and children can be well looked after from and before pregnancy, it will save the lives of poor and needy women of the poor society.

My mission is to establish 100 Health & Education Free Centres all over Pakistan to provide education and to cater FREE treatment at the door step of poor and destitute patients for all diseases before these become incurable.

God bless all of you!

Syed Naeemul Hassan

Founder Chairman

MESSAGE FROM

Mr. Justice (Retd.) Nasir Aslam Zahid

**Former Chief Justice of
Sindh High Court & Judge of Supreme Court of Pakistan**

Children Health & Education Foundation is doing wonderful work and serving the poor and needy by opening Primary Healthcare, Mother and Child Healthcare and Ultrasound Centres at their door steps and that too absolutely FREE of charges. Besides, they are also running primary schools, computer training & English language learning Centres. All these services are commendable.

I wish that such Centres operate in every Mohallah of Pakistan. I admire all those people who are doing social work for the betterment of the condition of poor people. I appeal to all the kind hearted civil society members to help Children Health & Education Foundation who are doing such selfless social work for the poor and destitute people of Pakistan.

MESSAGE FROM

Mr. Shaukat Tarin

Former Finance Minister

It gives me a great pleasure to say that the Children Health & Education Foundation (CHAEF) is providing primary healthcare services and quality primary education free of cost to the children belonging to the poor families at their doorstep by establishing primary healthcare centers, primary schools and vocational training centres for girls in their own areas.

I was very pleased to learn that CHAEF is not only treating common diseases at their primary healthcare centers but they also try to diagnose deadly diseases at very initial stage with the help of American Healthcare system, thus preventing them turning into terminal diseases.

Inshallah 1000 such type of centres will be established all over Pakistan. This is not possible without your active support. I request you to please come forward and support the Children Health & Education Foundation.

MESSAGE FROM

Saadia Naveed

**Deputy Managing Director
English Biscuit Manufacturers (Pvt.) Ltd.**

The story of the Children Health and Education Foundation (CHAEF) genuinely deserves to be highlighted as a consummate case study of all that is pure, compassionate and selfless. Education and health care are the basic needs of the hour for everyone, especially the underprivileged of our society. Only the unfortunate sufferers can really feel the trauma, sense of hopelessness and the anguish when they do not have ready access to these basic rights.

It gives EBM great pleasure to be associated with CHAEF since its formation by sponsoring a Primary School for boys and girls in Chishti Nagar, Gulistan-e-Johar, Karachi. This school was later upgraded and the same premises are now being used as a Primary Health, Mother & Child Healthcare and Computer Training center as well.

It is a matter of great satisfaction that CHAEF has over the years rendered commendable services in the field of education and healthcare. The services by this remarkable institution are beyond praise and worldly accolades. Surely their entire team, present and past, have earned the best of God's graces for themselves through their exemplary devotion and total commitment.

I take this opportunity to salute a great institution and thank it for giving us an opportunity also to be of service to it in our own humble way. Our fervent best wishes go out to the CHAEF for all its future plans and goals.

I appeal to all my country people to come forward and support this organization and the cause that they are actively and effectively pursuing in whatever way they can for surely the reward for doing so is beyond measurement in pecuniary terms.

MESSAGE FROM

Mr. Saeed Allawala
Managing Director
ATCO Laboratories Limited

I feel privileged to have been associated with CHILDREN HEALTH AND EDUCATION FOUNDATION (CHAEF) since its inception. Although looking to its age CHAEF is still in its infancy, it has already been making great strides. Its activities in its chosen fields of primary and vocational education and healthcare for the poor are growing both in terms of range of facilities and the number of beneficiaries.

It is heartening to note that in a very short span of time, the organization has forged its way forward to the West and North of Pakistan by establishing its regional office in Lahore with the objective of extending its services not only to the poor and underprivileged segments of Punjab but also to the similar sections of society in NWFP. Progressing at this pace, hopefully, the day is not far off when CHAEF will have its network of schools and healthcare centers cutting across the whole length and breadth of Pakistan. I must say the achievements of the organization so far have been impressive both quantitatively and qualitatively.

I hope, CHAEF will continue to persevere in its avowed objectives and play its role in lessening the ignorance and alleviation of sickness in the dark lanes of poverty in Pakistan.

**The Chairman and
Board of Governors**

**CHILDREN HEALTH &
EDUCATION FOUNDATION[®]**

would like to thank

- ▶ We do care for their best health, education and will ensure their healthy and literate life
- ▶ Our every action is beneficial for needy children and women
- ▶ We ensure prevention from complications & an early diagnosis of serious ailments

Objective

- ▶ Perfect smile for every under privilege face, a gift forever

Need of Prefabricated Centres at un Developed area

Photographs showing the present highly unsatisfactory living conditions of the poor residents of Villages. CHAEF has been trying to help the poor and deprived segment of the population by providing Health Care and Education facilities by establishing prefabricated Healthcare Centres which are convenient to transport and install at remote locations. Such prefabricated centres having basic healthcare facilities alongwith Ultrasound, Mother & Child Healthcare, Blood Collection and Free medication are already working satisfactory in Karachi and Faisalabad.

Inauguration of prefabricated Primary Health, Mother & Child Healthcare Centre by Mrs. Nargis N. D. Khan, Minister for Social Welfare, Government of Sindh. Sitting from left to right Dr. Iftikhar H. Siddiqui PhD; C Chem; FRCS, Syed Naeemul Hassan, Chairman CHAEF, Mrs. Nargis N. D. Khan, Mr. Jimmy Engineer, Social Worker and Mr. Haider Imam Rizvi, former senior producer Pakistan TV.

Request for your support to establish a prefabricated centre for providing Maternal Care, Mother & Child Healthcare Services

Children Health & Education Foundation started its operation in September 2003 with the object of providing basic healthcare facilities to prevent and detect deadly diseases such as Kidney, Eye, Heart related diseases, Diabetes and terminal Cancer, which if not detected could require exorbitant expenses for treatment at specialty hospitals.

We are presently providing the following **FREE** services at our primary health, Mother and Child Healthcare and Education Centres, located in Karachi, Lahore, Faisalabad.

Diagnoses, Consultation, Treatment, Medicines, Ultrasound services, Laboratory tests, test for the Diabetes and hypertension with Medicines, Pregnancy tests and if confirmed complete follow up till delivery of Child which includes Ultrasound, Monitoring Care, Multivitamins, Medicines and check up by Gynecologist, Vaccinations and the arrangement of delivery at nearby Zakat funded Hospitals.

We are committed to help the women by setting up the Maternal Care, Mother & Child Healthcare Centres as it seems that every women patient having a disease is related either to Gynecology, Obstetrics and Hormone imbalance.

BP, Eye and weight being checked prior to examination by doctor.

Patient being examined by the doctor.

Ultrasound of the patient at the Centre.

Renovation / Upgradation of 100 years old Government Girls Secondary School Sharafi Goth carried out by Children Helth & Education Foundation

We are pleased to inform that we have renovated a 100 years old girls school at Sharafi Goth, Malir area behind Korangi industrial area, where mostly oldest Baloch residents of Karachi are residing. The school has been upgraded as Govt. Girls High School (class VI to X). We have arranged its entire White Wash/ Paint, Plumbing Work, Electrical Work, Student Desks, Tables, Chairs, Fans, Water Cooler and other repair work.

We have established a Computer Training Center and a Science Laboratory for the poor girls studying in the school and for the boys of the area in the afternoon and request for your support and donation.

Seminars / Honorable Visitor

Children Health & Education Foundation organized a training program for all its medical officers on 6th March 2010 at EBM Primary Health, Mother and Child Healthcare Centre Gulistan-e-Johar Karachi, Dr. Shahida Mirza, Surgeon Lieutenant Commander (Retd.) Consultant Gynecologist & Sonologist, Head of Health Centres, imparted training and provided

guidelines for improvement in diagnoses and treatment and for referring poor patients suffering from deadly diseases to the specialized hospitals for treatment. It was agreed to hold such training programs on quarterly basis to improve diagnostic services mainly to detect deadly diseases, like Cancer, Kidney, Heart, Diabetes, High blood pressure, Hepatitis, Thelesimia, T.B. Typhoid, etc., at early stage and refer to the specialized hospitals before these become incurable.

The above photograph shows Chairman Children Health & Education Foundation with all the medical officers working at its Primary Health, Mother and Child Healthcare Centres, in Karachi who participated in the training programme.

The Base Center at Moladad Goth 15 kilometers off Hub Road controlling 45 villages through Mobile Vans under outreach program at the junction of seven of 45 villages. The entire area does not have drinking water, electricity and medical facility.

Mr. Muhammad Ali Chairman Fortune Securities and Member KSE visited our state of art Primary Health, MCH Ultrasound & Blood Collection Centre with Free Laboratory Test at Sultanabad off M T. Khan Road Karachi.

Ms. Zarrin Siddiqui, Assistant Professor, MBBS, MCPS (Psychiatry), MEd Studies Education Centre Faculty of Medicine, Dentistry & Health Sciences University of Western Australia visited our three established Centres.

Ms. Fatima Sultan, Director, FFEM/Zanbeelart, a non-profit foundation in USA visited two Centres in Karachi. She said that "I would like to thank you for the tour you gave of Mother Child clinics center's. It was very impressive.

EDUCATION & HEALTH

Children Health & Education Foundation is the only NGO providing FREE Healthcare and Educational facilities all over Pakistan to the poor and needy at locations where no such facilities are available as shown in the photographs

Johar Town Centre – Lahore: Poor students getting education with two meals

Malakand (Swat): Free Medical Camp established at Mardan to serve displaced poor people from Malakand.

Shah Faisal Colony Centre – Karachi: FREE Computer Training Centre established in 2009

Goth Moladad (Hub) – Karachi: Free Primary Health, Ultrasound, Mother & Child Healthcare Centre established to support Mobile Health Van service covering 45 villages by setting up of Junction of 7 villages.

Hand water pump installed at Moladad Goth under Unilever Grant Scheme 2009. There was no arrangement of water supply in the area

Primary School for boys and girls at Gulistan-i-Johar

Children Health and Education Foundation opened its first primary school at Chishti Nagar near Kamran Chowrangi, Gulistan-i-Johar, Karachi. The school was inaugurated by Mr. Khawar Masood Butt, Managing Director, English Biscuit Manufacturers (Pvt) Ltd on 15th August 2003. The school imparts modern primary education, which includes computer, Montessori, KG sections to 250 students. The students are provided almost free primary education. The school administration do not press for payment of monthly fee.

Annual Fundraising Dinner 2009

Children Health & Education Foundation has seven sponsored Primary Health, Mother & Child Healthcare Centres whereas we are catering 142 Health and Education activities all over Pakistan. To meet the expenses for non-sponsored Centres, we have to organize fund raising events to generate funds to meet operation expenses and to continue other welfare activities e.g. supply of uniforms, books, shoes and scholarships to school students, free food and other items and provision of water in remote areas. Besides, CHAEF provides limited financial support for surgical treatment of patient referred to other hospitals.
